

BOBBY STYLES

bobbystyles3@gmail.com | (201) 665-5051 | <https://bstyles351.github.io/> | www.linkedin.com/in/bobbystyles

EDUCATION

Boston University, College of Engineering Boston, MA
MS, Electrical & Computer Engineering Sep 2025

- Coursework: Fabrication Technology for Integrated Circuits, Physics of Semiconductor Devices, Computational Methods in Materials Science, Electronics, Dynamics Modeling of Complex Mechanical Systems

University of Richmond Richmond, VA
Bachelor of Arts, Leadership Aug 2021 - May 2024

- Physics Minor, 3 Semesters on the Dean's List

SKILLS

Design: KiCad, OnShape, Autodesk Fusion

Fabrication: Silicon Processing, Photolithography, Soldering, Laser Cutter, 3-D Printing, CNC Mill

Software: Quantum Espresso, Mathematica, Matlab, Python, Excel

PROJECTS

Masters Project May 2026 - Aug 2026

- Investigated the role of static magnetic fields on optical and spin excitations in NiO
- Suggested applying Lissajous figures to help visualize precession of magnon while varying parameters
- Ran high performance computing jobs on the BU Shared Computing Cluster

High Power Buck Converter Sep 2025 - Present

- 24V 35A custom buck converter, developed schematic, tailored PCB layout, and assembled board
- Diagnosed flaws in previous converter, carefully recalculated system calculations allowing for a lower current design, 20% less power consumption, and easier assembly and maintenance

EXPERIENCE

President, Electrical Team Co-Lead Sep 2025 - Present
Mars Rover Club Boston, MA

- Designed housing for PCB boards, created a customizable interface for modular attachments reducing wire clutter
- Submitted to University Rover Challenge 2026, best score in Boston University history
- Oversaw BOM, ordered and received dozen of components, and managed inventory levels

Sales, Project Management May 2024 - Aug 2025
ModernfoldStyles, Inc. Moonachie, NJ

- Generated \$1.2 million in sales of office fronts and telescopic systems
- Advised in development of new modular office front offering halving onsite labor requirements
- Optimized existing products by noticing existing symmetric geometry allowed for cleaner corner connection and reducing part count by removing redundant traveling post

Intern May 2023 - Aug 2023
ZONA Glass Wall Systems Newfield, NJ

- Controlled dead inventory levels, freeing up shelving space saving upwards of 25,000 in new shelving units.
- Developed guidelines to meet OSHA standards, added AEDs, and compliant documentation process
- Began patent process for new products, working with patent attorneys to explore patentability

LEADERSHIP & ACTIVITIES

Captain, President, Club Rugby Aug 2021 - May 2024

- Managed \$20,000 club funds account, lead campaigns to increase membership and donations
- Grew club from half a dozen members to over fifty active members and 3 nationals appearances
